

High Knob Is Under a Mandatory Water Restrictions

High Knob Utilities, Inc. has announced **MANDATORY** water usage restrictions for the High Knob water service area. The restrictions apply to all High Knob Utilities water customers.

During the restriction period, customers are asked to refrain from outdoor water use, including but not limited to:

- Watering lawns
- Washing cars, boats, trailers, recreation vehicles, etc.
- Filling pools and hot tubs
- Non-commercial power washing
- All other non-essential outside use of water

Customers are also requested to conserve water in their daily activities whenever possible.

The restrictions are required as a result of limited rainfall. These restrictions will help ensure that there is adequate water for all customers for essential purposes.

In the event you see a neighbor involved in non-compliant water use during this period, please offer them a friendly reminder of these restrictions. Water being used for lawn watering or car washing is water that is unavailable for someone else's bathing and cooking needs.

High Knob Utilities thanks its customers for their cooperation and understanding.
